PROFILE

Computer science graduate and product manager. On a live B2B marketplace with 800+ suppliers and 20,000+ customers, I led the launch of online card, bank and wallet payments, moving most customers off cash on delivery. Erasmus+ alumnus of the Silesian University of Technology (Poland). Looking for product roles in marketplaces, payments and logistics.

EDUCATION

Bachelor's Degree in Computer Science (Academic Bachelor, 180 credits) **Oct 2022 – Jul 2025**

Higher Institute of Sciences (HIS) *Algiers, Algeria*

Field: Mathematics and Computer Science · Specialisation: Computer Systems · Grading scale 0–20, pass mark 10

- Annual average rose every year: **11.91 → 13.39 → 15.03 / 20**.
- Selected results (/20): Compilation 18.00 · Logic Programming 18.00 · Human-Computer Interaction 18.00 · Legal and Economic Aspects of Software 18.00 · Final-year Project 17.25 · Software Engineering 1 16.30 · Operating Systems 2 16.00 · Artificial Intelligence 16.00 · Computer Security 14.20 · Software Engineering 2 14.00

Erasmus+ (KA171) Exchange Semester, Computer Science **Oct 2024 – Feb 2025**

Silesian University of Technology (Politechnika Śląska), Faculty of Automatic Control, Electronics and Computer Science *Gliwice, Poland*

- Passed all 9 courses (25 ECTS), ECTS-weighted average 4.36 / 5.0: Internet Technologies 5.0 · Social and Professional Challenges of Computer Science 5.0 · Artificial Intelligence 4.5 · Operating Systems 4.5 · Software Engineering 4.0.
- Project manager of a six-person team building *Commercify*, an e-commerce prototype, in the Software Engineering laboratory. Led functional and non-functional requirements and produced the UML use-case, class and sequence diagrams.

PROFESSIONAL EXPERIENCE

Product Manager **Mar 2026 – Present**

Maystro Delivery (Okadoo) *Algiers, Algeria*

One of Algeria's largest last-mile delivery companies. Okadoo is its B2B marketplace connecting suppliers to retailers nationwide.

- Own the Okadoo product end to end, from discovery and PRDs through prioritisation, sprint delivery and iteration, for 800+ active suppliers and 20,000+ customers.
- Led the launch of the online payment stack (Dahabia and CIB cards, bank transfer and cheque, Okadoo Wallet). 70–80% of B2B customers now pay digitally instead of cash on delivery.
- Shipped AI catalogue import: suppliers upload a PDF, an Excel file or their website, and AI fills missing product data and finds or generates missing images by SKU. Also shipped automatic B2B billing (pro forma, purchase order, final invoice, delivery note, and credit notes for full or partial returns), exchanges and refunds, and supplier subscriptions.
- Lead 6 engineers and 1 product designer through Scrum. Raised on-time task completion by 30% by restructuring sprint planning.

Product Manager, Learning Platform **Oct 2025 – Mar 2026**

Higher Institute of Sciences (HIS) *Algiers, Algeria*

- Owned the institute's Moodle LMS from requirements to deployment. Shipped courses, assessments, SCORM packages and H5P content used by 600 students and 20 instructors.

Digital Project Manager (Contract) **Aug 2025 – Sep 2025**

HiveDigit, digital agency *Algiers, Algeria*

- Led client web projects from discovery to launch. Ran requirements gathering, wrote documentation and Figma wireframes, and introduced an annotated prototype handoff between design and engineering.

UI/UX Designer Intern **Jul 2023 – Aug 2023**

Go (ex Goubba) *Hydra, Algiers, Algeria*

- Designed TicketsResto from the ground up and shortened the design-to-code handoff using Locofy.

Full-Stack Web Developer Intern **Jul 2022 – Sep 2022**

Gen42 *Algiers, Algeria*

- Built features across the MERN stack in a production codebase, inside a full Agile cycle.

PROJECT

Bayti, multi-role real-estate marketplace *github.com/Fares00T*

- Designed the permission model and data model for four roles (buyers and renters, agencies, sellers, admin), with multi-criteria search, a map view and a viewing-request workflow. React, Node.js, Express.js, MySQL, Prisma.

LEADERSHIP AND ENGAGEMENT

Founder and President, No Limit Club **Dec 2022 – Jul 2025**

Student computer science community, Higher Institute of Sciences *Algiers, Algeria*

- Founded and grew the club to 15+ active members. Organised workshops, hackathons and guest talks, and built partnerships with tech companies for mentorship.
- Mentored and organised the workshop “Your Path to Web Mastery: Intro to Development and UI/UX Design” for new students at the HIS entrance ceremony (Oct 2023).

Vice-President, Student Council *Higher Institute of Sciences*

- Represented students in academic and administrative discussions with the institute.

SKILLS AND LANGUAGES

Software and data: JavaScript, React, Node.js, Express.js, REST APIs, SQL, relational data modelling, HTML/CSS, Moodle (SCORM, H5P)

Engineering practice: requirements engineering, UML (use-case, class, sequence), BPMN, Scrum, backlog management, acceptance criteria

Tools: Jira, ClickUp, Notion, Figma, Google Analytics, Looker Studio, Excel, Google Workspace

Languages: Arabic (native) · English (C1) · French (B1) · Polish (A1)

Certifications: Fundamentals of Deep Learning, NVIDIA Deep Learning Institute (2023) · Full-Stack JavaScript Program, GOMYCODE (2021–2022) · Entrepreneurship 101 Bootcamp, 35 h, HIS (2023) · Project Management 101 Bootcamp, 16 h, HIS (2024) · 21st Century Skills Training, World Learning
